SUBJECT INDEX

(This index includes all *papers*)

Accounting 48
Activity network 1296
Air transport 299
Aircraft loading 458
Airlift 458
Allocation 958
Ambulance deployment 736
Analytic hierarchy process 758, 896
Analytic network process 758
Applied probability 1198
ARIMA 1189
Artificial intelligence 914
Asset life 343

Balanced scorecard 507
Banking 723
Batching 499
Bayesian 371
Bayesian information updating 846
Bayesian methodology 1198
Benchmarking 165, 627
Bicriteria scheduling 661
Bidding behaviour 1177
Bin packing 458
Boundary critique 325
Brainstorming 692
Branch and bound 970, 1076
Budget constraints 769
Business processes 2
Business strategy 175

Can-order policy 283
Capacitated arc routing 1209
Capacity constraints 401
Capacity planning 1198
Cellular manufacturing 1059
Chemicals 350
Classification 627, 790
Client/server-architecture 426
Cognitive mapping 936
Coherent system 995
Collaboration 924
Combinations of forecasts 109
Combinatorial analysis 1102
Combinatorial problems 59
Community health clinic 1141
Computational analysis 594, 871
Computational experiments 362
Computational organizational learning 924
Computerization in developing countries 1029
Condition monitoring 273
Consecutive-*k*-out-of-*n*: F ystem 995
Consecutive-*k*-out-of-*n*: G ystem 995
Consistency 896
Constraint programming 458
Control 594
Controllable setup and processing times 499
Core competence 153

Cost 515
Cost–benefit analysis 1234
Costing 32
Covering problems 769
Cox regression 343
Credit assignment 924
Credit scoring 627, 822
Cricket 838
Critical OR/systems 559
Critical path method 1296
Critical systems thinking 325
Cross-matrix consistency 758
Cross-training 410
Cutting and packing 777
Cutting stock problem 419
Cybernetic modelling 140
Cycle stock 362

Data envelopment analysis 48, 101, 165, 21, 654, 679, 723, 751, 1029
Data mining 350
Decision 878
Decision support systems 713, 949
Decision tree 790
Delay time 273
Delay-time modelling 1249
Deterioration 432
Digital contracts 1002
Discretization 790
Dispatching rules 1038
Disruption and delay 222
Distributed computation 419
Distribution 65, 390, 833
Districting 1141, 1209
Downtime 1249
Due-date assignment 1222
Dynamic capabilities 914
Dynamic optimisation 89
Dynamic programming 213, 379, 401, 539, 47, 806, 838, 846, 878, 1148

Economic order quantity (EOQ) 549
Education 452, 679
Efficiency 723
Electricity demand forecasting 799
Embedded Markov chain 466
Emergency medical system 736
Emergency replacements 40
Emergent property 239
Empirical results 1263
Enterprise resource planning 426
EOQ 1011
Epistemology 239
Estimates 1050
Ethical funds 521
Executive compensation 751, 1242
Explicit knowledge 140
Exponentially weighted moving averages 109
Expropriation 769

Facilitation 692
Feature selection 790
Feedback 443
Field service 410
Finance 48, 521, 1002
Fixed cycle times 40
Fixed product lifetime 585
Flexibility 410
Floats 1296
Flow shop sequencing 1076
Flow-shop 437
Flow-time 1263
Football 213, 1167
Forecasting 109, 307, 350, 833, 1022
Full load 390

Gender equity 751
Generalized routing problem 906
Generalized traveling salesman problem 906
Genetic algorithms 21, 248, 958
Goal programming 1155
Government 1022
GRASP 806
Group decision support 692, 706, 936
Group decision-making 706
Guide prices 1177

Hard OR/systems 559
Health 1022
Health facilities 21
Health services 713, 736
Heuristic algorithms 1263
Heuristic method 21
Heuristic solution 472
Heuristics 65, 379, 390, 571, 614, 806, 059, 1085, 1209, 1254, 1275
Hierarchical criteria 1263
Higher-order Markov model 291
History of OR/MS 1127
HIV and AIDS 713
Holt–Winters exponential smoothing 799
Hub cover 59
Hub location 59
Human resource 153
Human–machine systems 949

Information systems 175, 194, 204, 426
Information technology 130
Inspection 1249
Inspection errors 888
Integergoal programming 1155
Integerprogramming 59, 72, 230, 642, 1102, 1283
Intellectual capital 153
Intersectoral research and development 165
Interval goal programming 532
Inventory 83, 263, 362, 432, 549, 585, 1011, 1093, 1189
Inventory control 32, 283, 350, 539, 833, 846, 984
Inventory model 636
Inventory-level-dependent demand rate 585

Job priorities 806
Joint replenishment 283
Judgment 706
Just-in-time 437

Knowledge 175
Knowledge management 119, 130, 140, 153, 165, 194, 204, 936
Knowledge management systems 184
Knowledge market 924

Lagrangean relaxation 401
Lateral transshipment 636
Layout 419
Layout planning 1275
Lead times 83
Learning 443
Linear programming 230, 452
Litigation 222
Local search 1076
Location 21, 59, 871
Logistics 65, 263, 507, 1283
Lot sizing 432
Lottery 89
Lower bounds 1263

Machine location problem 472
Maintenance 273, 343, 1148, 1249
Management 914, 1167
Management learning 130
Manufacturing 539
Markov processes 283, 318, 878
Mathematical modeling 1059
Mathematical programming 1275
Maximum earliness 661
Maximum tardiness 1263
Messy problems 706
Methodology 255, 559
Methodology choice 325
Military 458, 958
Minimizing total completion time 499
Minimum cut 426
Minimum spanning tree 248
Mixed integer programming 362
Modelling 119
Modelling complex projects 222
Monitoring interval 273
Moving averages 109
Multi-class queues 379
Multi-criteria optimization 1141
Multi-depots 390
Multilevel modelling 679
Multimethodology 559
Multi-mode project scheduling 614
Multi-objective 452
Multi-objective genetic algorithms 1155
Multi-objective optimization 790
Multiple-step tasks 924
Multi-product flowline 472
Mutual fund performance indexes 521

Network 860
Network design 248
Network flow 426
Networks and graphs 72, 871, 1085, 1283
Neural networks 307, 1002
Newsboy's model 291
Night watchman 838
Nnetworks and graphs 490
Nonlinear integer programming 1059
Nonparametric frontier analysis 1242
Number of tardy jobs 661

Obnoxious locations 769
Off-line inspection 888

Online auctions 1177
Optimization 230, 401, 419, 594, 888, 1059, 1102, 1167
Option pricing 1002
